## DETAILED ACTION

### *Amendment*

1. Acknowledgment is made of Amendment filed 3 January 2003.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Kayani et al. (US 5,917,930).

Re claims 1-4 and 7-10: Kayani teaches a method for processing sheet material/currency, in particular papers by which different groups/stacks 16, 20, 24 of sheet material are processed successively, comprises the following steps: separating the different groups/stacks 16, 20, 24 of sheet material; processing the separate groups/stacks of sheet material, wherein a separating means (18, 22, 26) is used for separating the different groups/stacks of sheet material; and at least one information means 32, 34, 36 is used for processing the different groups/stacks of sheet material (see figs. 2 and 3a-3b; col. 2, line 49 through col. 3, line 40; and col. 5, lines 8-41)

Re claims 5-6 and 11-13: Kayani teaches a method for processing sheet material wherein the separating means and 18, 22, 26 and the information means 56, 58, 60 are brought together with the groups of sheet material at different places (see fig. 4; col. 5, lines 42-62).

Art Unit: 2876

*Response to Arguments*

4. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the separator card and information carrier of the present invention are **separate from one another** page 7, lines 12-13) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

*Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly D. Nguyen whose telephone number is 703-305-1798. The examiner can normally be reached on Monday-Friday 7:30-4:30.
